
MAP of

Part of Blocks 30 & 31 Tsp 1, S showing lines and corners as found on the ground. This plat shows the existing corners with bearings found and identified as Original. The two surveys one on South part of these two Blks by W.C. Powell, on North by J.L. Peck do not correspond to the Field Note Record prepared by the T.&P. Survey. Nor does survey made by T.M. Lightfoot tie to an original corner. This survey made to correspond to work on ground and Patents as nearly as possible.

Plat and Survey by
W. Strahan,
Licensed Land Surveyor.
