Dear John:

Posts called for in
yellow boxes F & are Labor
Posts for School Lgs III -
110-109 - Original
NW 110 is plain and'd
but to connect with Capt
Lg course here runs

N 88° 38' E 1055.3 ans

WL 110 is 5021.5

SL " " 5047.3

WL 109- " 2338.5

SL " " 5040

Orig mt is in WL 109-2791

Varas S from NW corner

orig gr of 109 is called

for in map Littlefield FN

the S part of Lg 109 is 2681

S: to orig SL course -

Dear John! -

I am in closing detail for
Leagers 175 to 200 - I
made this sketch for present
owners and they presented
it to their warrantor and
his attorney, who accepted
this construction and
gave them credit ^{according} on final
settlement, so it is claimed
as shown.

I have recently located
Leager 172 in surveying
a vacancy for Sylvan
Sandrus - Field notes were
forwarded ~~from~~ from Crosbyton
about one week ago. Let
me know if they are filed -

You should get judgment rendered putting excess

N. of Coyote lake in

Block A making

sections 2065-Varas

for 7 miles to Concord

with Cap Lg 628-

The Capitol Leagers

are not regular but

NE of Cap Lg 629 is

exactly 3 Leagers from

State line within 15-

Varas - with this data

you will need no Velburn

however write if I can
aid further - your friend dd^r
