

Mason 24 Sept 14 1.
 I send you another sketch of the J.W. White survey no 125 and the surrounding survey showing the length of line as measured on the ground and the corners marked OK found and identified. Some marks O only, 26 and no beams call the black line shows the various survey as the Record in this office shows them. The dotted Red line shows the west Boundary of the White new survey no 266 the other Red line shows the Survey no 265 & 266 as they exist taking the 3 prong cotton wood for the corner between 265 & 266 and shows the conflict with no 8 for the corner between 265 & 266 and shows the proper Boundary of these being one in the corner and I think will be returned next term of court.

Wm. H. Holland
 County Surveyor Mason Co 24 Sept 14 1914
