

I certify that this map represents a survey made by me on the ground, according to the law, on February 2, 1939, with Robert Fischer and Wilburn Souled as chain carriers, duly qualified, and that the corners and lines shown hereon are true and correct as I found them on the ground; said corners were identified by rocks or stones standing upright originally so placed, easily identified as corners as no other rocks or stones, loose or otherwise, to be found in this area; no witness trees could be marked as only low brush grows in this area.
