

To Com<sup>dr</sup> of the General Land Office

Sir—  
at the request of John Smith I have forwarded  
the accompanying field notes, with instructions that  
you wait for further orders, as his intention is to  
be at the General Land Office in a short time when  
he will present the necessary transfers to the certificate,  
you will discover by the accompanying plat that Smith has  
two other surveys the field notes of which will be  
forwarded in due time, the bearings and distance  
of the lines as represented was taken by me and believe  
them correctly represented, please preserve the same  
so I wish in the course of the summer to forward to  
you all the corrections that is possible for me to  
make, the present map of the county also the map  
as made out at the General Land Office and sent to  
S. Luller (the former County Surveyor) in many places  
are very incorrect. It is my wish to remedy this  
as much as possible, by forwarding to the office  
such corrections as I may be able to make and at  
some future day request the Drafts-man to furnish  
me with a map, any advice from the Department  
or any matter pertaining to my Office. The inform-  
ation of which will be thankfully received.

Yours respectfully

James E. League  
County Surveyor  
AL
