

Palatino New April 30 1859-

Gen. Zenois M. Whit.

Comd. Gt. Office

I ask

for information, relative to the true location of  
 the Robert Kennedy 640. ac survey located in  
 this county on Lake creek - your maps represent  
 it as lying west & adjoining the J. B. Moffitt 1289 ac  
 survey - which the records of this office place North  
 of the C. C. Stibbins 640. ac survey - Now the true  
 situation of it is asked for - The land North of  
 the Stibbins has been surveyed during the two last  
 years - I should think Kennedy by these some one  
 to know it - I send also a map showing  
 the true situation of the near Bannell League  
 from actual measurement - The N. corner 320. ac  
 to S. E. corner stands 40.000 North of the Bannell League  
 line & 750.000 S. 45. W from N. E. corner of the same -  
 The E. S. Whitesides 320 ac lies south of that & comes it to  
 conflict with the Bannell League - The Robert Botton  
 Survey; according to the records here "Conflict with  
 Whitesides & J. B. Moffitt Survey" should the Whitesides  
 claim be located Else when - Please give the  
 location of it - The mapping of that section has  
 been incorrect & I want to get it righted - The map as  
 submitted is substantially correct  
 your most obedient servt  
 J. H. Hendrix

The above mapping shows the true portion of the  
 surveys to each other - The proper location of the Robert Kennedy  
 is sought for
