Hon J. M. White, Comm<sup>r</sup> of the S. E. Office

Dear Sir

I herewith send you a plat showing the conflict between the recent surveys on the Lagunillas Creek, and the old surveys made in 1839 and '40 by S. C. Hays, then Deputy Surveyor.

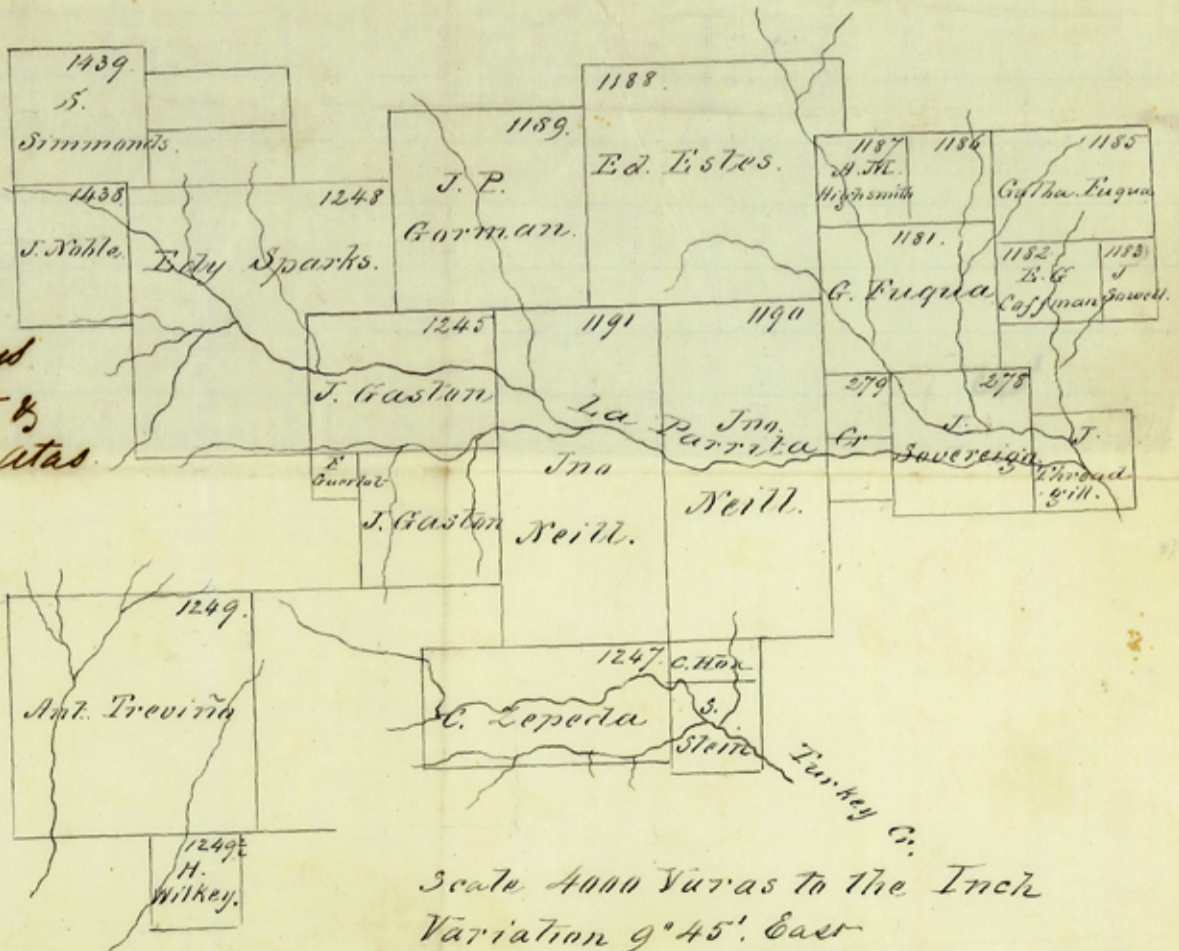

The marks of the old work, although much defaced, and in most instances destroyed by fire, were still sufficiently plain and numerous to be identified beyond the possibility of a reasonable doubt.

Yours respectfully

J. Giraud
