The surveys joining above have been re-  
sented previous to this at running  
N. 29 1/2 E. — therefore this will  
not agree with map Nov. 1. 1847

Near Pleasanton

Dated Oct 23, 1837.

By H. S. Upstur.

Plotted on map Nov. 18. 1847

By further examination it is found  
that the error is in the junction of Navarro's  
4 league survey, running N. 20 E, without  
regard to the magnetic variation — and  
S. N. Salinas which is run N. 20 E. ac-  
cording to true North as verified by re-running  
some of the old lines.
