I, _____ Deputy Surveyor, _____ District,
Do Hereby Certify, That the foregoing Survey was made according to law, and that the limits, boundaries and
corners, with the marks, natural and artificial, are truly described in the foregoing plat and field notes.

Deputy Surveyor, _____ District.

I, _____ District Surveyor, _____ District,
Do Hereby Certify, That I have examined the foregoing plat and field notes, and find them correct, and that they
are recorded in my office, in Book _____, No. _____, Page _____

District Surveyor, _____ District.

Pleasanton Tex July 26, 1876

By Sir Enclosed herewith a sketch of
two surveys as they do exist on the ground. Hoping that they
prove entirely satisfactory the N W E corner of G Williams
and West corner of the Dunbar surveys are one and can
not be changed the Dunbar and Coleman are plus 169 vs
as shown on the sketch and Dunbar plus on the Williams a
few bars as shown by the dots on the S W B of Dunbar.
This work has had a great deal of attention and by the
surveys made on the ground I believe this ^{plot} to be as perfect as
it ~~can~~ can be made without changing of some of the older
corners which cannot be done.

I forward you field notes of 1711 and 1717. Hoping that you
will see that they are examined immediately and the survey no.
1712. the line to be read S W 2413 vs E 1067 N 40 W
600 S 50 E. 156 vs N 2054 vs. W 1613 vs.

The W B line of 1718. is 2034 vs. in length and
the area 640 acres. Hoping to hear from you
immediately I Am Yours

With Great Respect.
Enoch Moore
