

Office of

RIGHT OF WAY AGENT.

Houston, Texas, June 1/95.

Subject

Mr. E. Von Rosenberg,  
Austin, Texas.

Dear Ernst,--

In the Austin County matter I have to-day sent to Mr. Groos a statement and sketch from Mr Ludwig showing the relative position of the point F to the N.W. corner of the Flores league. Taking the meanders from the South line of the Flores to the point F and thence to the N.W. corner of the Flores, you will find that they do not balance, and as the error in the meanders is most likely to be from the South line of the Flores and the point F, we have adopted the meanders from F to the N.W. corner of the Flores as correct. The distance being shorter they are of course less likely to be in error.

Will you kindly send me the certified sketch as soon as it can be made up.

I enclose herewith the several traverse tables which you let me have a few days since.

Very truly yours,

*This letter appears to refer to sketch file 6B- sketch, according to traverse computation herewith.*

*8/18/30*

*Blucher*
