facts and I hereby notify you that all surveys located on the

Surveyor 300 Acres of School Land

P.S. The United State Surveyors now at work in New Mexico
have located the 103 meridian about 10 miles further
East than it was located by Mr. Manson (The Capital
Land Surveyor). The work, of the United State Surveyors
if correct, show that a large quantity of the State Capital
lands are located in New Mexico.

Very respectfully yours
