I return herewith to Your Lordship the file marked Page No. 21 and 19 which you sent to me with your letter No. 394 of the 29th of last October and in which the residents of San Antonio de Bexar petition that lands be distributed to them, heeding that they were settlers of the abandoned Adaes Presidio, in order that, pursuant to the opinion of the Honorable Military Counsellor with which I have agreed in a superior decree of the 17th of the current, Your Lordship will order its fulfillment. May God Keep Your Lordship. Mexico, November 20, 1892. The Count of Revilla Gigedo—Honorable Ramon de Castro—Office of the Secretary.

In said Town on the 15th day of the month of January of this current year of 1793, I, the aforesaid Commissioned Governor, who act with attendant witnesses in the performance of these proceedings for lack of a notary, said: That with respect to the fact that the old time residents of the abandoned Adaes Presidio have been notified, as appears in the proceedings practiced yesterday the 14th of the said January and it being consequent that the President Father, Friar Jose Francisco Lopez, acquaint himself of the decisions of the superiority relative to the request of said residents that they be provided with land and water, and those to whom it is destined being of the Mission of San Antonio Valero according to the report of the Honorable Count of Sierragorda, the opinion of the Honorable Military Counsellor, and the decree of agreement of the Very Excellent Viceroy, Count of Revilla Gigedo, and in order that there be no delay in its fulfillment and it not serve as a detriment to said residents in farming their lands, clearing and readying them for planting, I have decided to pass said instrument to the aforesaid Father President of the Missions so that he may study said decrees and order, for himself and in the name of the Indians of the Mission of San Antonio de Valero, someone to show and who can point out the farming lands which are under irrigation although they are not cleared, in order that those may be separated which are destined by the cited decrees to the aforesaid residents of Adaes who have congregated these many years in said Mission; and to this effect I pray and charge in the name of His Majesty and in my own I beg of you to please set down in continuation hereof what my please you, in order to, in view of it, proceed with whatever is suitable. The preceding act seen by me, Friar Jose Francisco Lopez, President of the Missions of this Province of Texas, I said there was no obstacle against Your Lordship's proceeding with the distribution and adjudication of the lands which are to be given to the residents of Adaes congregated at the Mission of San Antonio de Valero, for which purpose the majordomo of this Mission shall point out the farming lands under irrigation so that Your Lordship may proceed with whatever may be convenient.

Mission of San Antonio de Valero, January 16, 1793.

Friar Francisco Lopez

In the Town of San Fernand and Presidio of San Antonio de Bexar on the 17th of January of the current year of 1793, I, don Manuel Munoz, Lieutenant Colonel of the Cavalry of the Royal Armies of His Majesty, Governor of this Province of Texas and Commissioned by the Honorable Commandant General of the Eastern Provinces, Colonel don Ramon de Castro, who act as receiver with attendant witnesses for lack of a notary of which there are none in the terms of the law, having seen the reply given by the Reverend Father President of the Missions, Friar Jose Francisco Lopez, and in order that the provisions of the Act decreed the 11th day of the current month may be carried out, said: Despite having informed the Indians of the Mission of San Antonio Valero through their Father Minister of the superior decree of the Honorable Military Cousellor, the Very Excellent and Honorable Viceroy, Commandant General, let them be called to this Government and being present with said Minister, whom I pray and charge beg to attend Governor Esmeregildo de la Puente and the Indians, Juan de Dios Cortes, Urbano Ynoxosa, Ancelmo Cuevas and Mateo Godines; and they being present said they were deputized by the other Indians of their tribe to acquaint the Honorable Present Governor that they appointed, as they had appointed, their own Governor, Esmeregildo Puente, to attend in the name of all the sons of the Tribe and to hear and

sign the notices and other legal proceedings leading to the fulfillment of the business which has been explained to their Father Minister. In this Act I, said Governor, ordered read to them in clear and understandable words the report of the Honorable Count of Sierragorda which follows in this file, the opinion of the Military Counsellor, the decree of agreement of the Very Excellent and Honorable Viceroy, Count of Revilla Gigedo, and Commanding General, along with the act decreed by me; and after being well informed that the lands of the Mission are to be distributed to the old time residents of Adaes Presidio, those attached to it or servants of said Mission, and to each of the Indians who have belonged to it, at the rate of four Almudes of planting, setting aside the portion needed to cultivate it, sowing it with fruits suitable to pay what is owed to said Mission whenever the case arises that its delivery to the Ordinary is ordered; and desiring that said Indians have the benefit and advantage of the land worked according to the knowledge they may have of it, it was proposed to them that they chose in which of the two labors they wished to have the land assigned to them by the Superiority distributed to them and said Governor answered, as did the others who were present, that they wished the Valero labor distributed to them and where there should remain remain enough ground to plant sufficient to pay from its fruits the debts to the Mission similar to the delivery to the Ordinary, and later they would decide to plant a community field for the benefit of themselves and the Adaes residents.

This they answered and said Esmeregildo signed with his Father Minister, Friar Jose Francisco Lopez; I, said Governor, signed it with attendant witnesses with whom I act as aforesaid, I certify.
