

Dec 8th 1879
South East Corner Gillespie Co.

The the undersigned Commissioners appointed according to law to establish the boundary line between Blanco & Kendall Counties met and could not agree. The Blanco County Commissioners contends that the line should be run from the S.E. Corner of Gillespie County South 27° East to a point on Comal County line as specified in the law defining the boundaries of Blanco County.

The Kendall County Commissioners contends that the line should run from a point on Comal County line five miles from the mouth of Currys Creek to the S.E. Corner of Gillespie County whatever the course maybe -

We therefore respectfully refer the matter to the Commission of the General Land Office in accordance with an act for better defining County boundaries.

John M. Watson
Surveyor of Blanco County

To Hon. W. C. Walsh
Comm. G. L. O. 3

J. P. Grady
Surveyor of Kendall County
