Nash, Texas, Oct. 28, 1927.

Hon. J. T. Robison,
Commissioner General Land Office,
Austin, Texas.

Dear Sir:

I enclose you herein for filing in your office, the corrected field notes of Section # 76, based on the data given you in my letter to you of May 31st, 1927 and shown on the plat therein enclosed you.

This plat I am again sending with the fieldnotes and I refer you to my letters of April 29th and May 31st, instant, for a full explanation of my last surveying work done on this section.

There is no doubt of there being a conflict of this section with the T. J. Cornelius Headright survey, as the fieldnotes of the latter and the lines ran by me on the ground show it to be the case.

Referring to your letter to me of June 21th, 1927 and your request in its last clause that I should explain how I fixed or identified the west line of the Chas. Burkham large survey, I would say that, its location is well known and well marked on the ground and that I have run it from one end to the other and have never heard of its location being questioned

Very truly yours,

Very truly yours,

and have never heard of its location being questioned
and well marked on the ground and that I have run it from one end to
the other.
I should explain how I fixed or identified the west line
of the last I refer to me of June 11th, 1927 and your request in the
lines run by me on the ground show it to be the case.

There is no doubt of there being a conflict of this section with the T.
C. Cornelius headright survey, as the fieldnotes of the latter and the
of my last surveying work done on this section.

This list I am again sending with the fieldnotes and I refer you to
my letters of April 20th and May 21st, 1927, for a full explanation
of my last surveying work done on this section.

I enclose you herein for filing in your office, the corrected field
notes of Section A 26, based on the data given you in my letter to
you of May 21st, 1927 and shown on the plat therein enclosed you.
