Mr. J. T. Robison

Austin Texas

Dear Sir I received copy of letter  
signed R. O. Son - - Welch - - -

Jones and - - Orear also Ralph  
son of Viavian La - <sup>also Calvin</sup> now you

consider the evidence. you have the  
evidence of four surveyors namely  
M. J. Knight, Charles H. Erwin,

A. W. Waver, H. C. McCluer also

J. H. Smelser all licenced land  
surveyors. altho they make some differ<sup>es</sup>  
in the north line running east &

west of 24 varas. I said in former letter  
mr. McCluer set the north east cor-  
ner of sec - 68. & north west corner

of sec - 64. with in two varas of  
where it was in the year 1896 J

now I am going to hold that corner  
 as it is in harmony with the  
 original Field note. I think  
 they have used the mail with  
 the intent to defraud. now  
 undoubtedly there is a mistake in the  
 distance from the south east Cor-  
 of J. A. Browning and south west  
 Cor- sec- 68. it is claimed by  
 W. V. Sims and R. C. Calvin the  
 distance from S. E. Cor- of Browning  
 To S. W. Cor- of Sec- 68 is 159 varas  
 R. C. Calvin says in another letter  
 it is 252 varas. according to working  
 sketch no. 1. and H. C. McCluers  
 measurement it is 474 varas. it  
 being in Harmony with original  
 field note (over)

3

The original field note of  
sec-68 calls for the North  
Boundary line of R. C. Graham  
H. R. B-
