206

San Antonio, Texas, December 18, 1940.

Mr. Bascom Giles,
General Land Commissioner,
Austin, Texas.

Dear Sir:-

When I was out in Brewster County with Mr. Gard sometime ago we found that the reference point on his connection line West from the mouth of San Francisco Creek, marked 5793 varas West of the Northeast corner of Survey 16, Block G-18, was actually 100 varas further West than shown on the map, and on the map that I left with Mr. Sheriff yesterday I have corrected this 100 varas. I do not know whether Mr. Gard has ever corrected this or not, but I think it should be corrected as other surveyors will be using this reference point.

Yours very truly,

D. B. Scott
