

Gasoline Tex.

5/13/13

Hon. J. P. Robison
Comr Geol Land Off.
Austin Tex -

Dear Sir, This plat is to show our construction of the River sections in Blks. 3 and 4, Texas and Pacific Ry. Co. as well as the other sections in said Blks, between the points indicated.

The red lines in Blk 3, show the North boundary of said Blk, also the sections, as same is located by offsets from said boundary line as given by the original field notes of said Blk - said red lines also show our conflict with local conditions - generally on North side of the river.

The red lines on So. of Blk 4, show the location of the respective sections of Blk G and M. - the broken red lines show our approximate conflict with the land filed on between said Blks. I did not put in the odd shaped sections of G. + M. nor the scrap land files bet said Blks as I have not those notes here in the field.

I expect to finish the resurvey of these Blks by June 1st. Please have print of plat made and send it to me - at my expense -

Yours very truly

G. A. Lick
