Statement.

The returned H. T. & B. P. P. surveys Nos 9 to 32 are not in a definite connection with a survey returned to this office so that they can not be properly plotted on Maps.

The Sketch returned to this office by the surveyor of Brown Co. is according to documents in this office wrong in its connection between the surveys numbered 614, 615 & 610 consequently this connection between said surveys and the above P. P. surveys was to be rejected.

Taking the connection given in said Sketch between Ireland Honeycutt's survey (1-324 Travis Dist.) and said P. P. surveys ^{as basis}, the following surveys of said P. P. surveys would show conflicts, viz: numbers 14, 15, 16, 17, 18, 19, 31 & 32 will conflict with a survey in the name of John Van Winkle 1.439. - numbers 26, 27, ~~28~~ and 30 with two ptd. surveys in the name of Julian Hernandez 2-178 - and No 29 will conflict with 3 ptd surveys, the said Hernandez surveys and with J. W. Grimes survey 1-401. - No 25 in conflict with 2 ptd surveys in the name of said Hernandez and Sam. Backs 2.164 - Nos 9, 22 and 23 will conflict with said Sam. Backs ptd survey. The balance viz. Nos 10, 11, 12, 13, 20, 21, 24 & 25.
