R-453

Report of re-survey of the M.M. Grant Survey in Burnet County Texas.

The Patent field notes for the M.M. Grant 40 acre Survey call to begin 70 Vrs N81 1/2 W from the Northwest corner of the R.S. Lyle Survey No. 51.

I made a complete Survey of the M.M. Grant Survey from this beginning corner and failed to find any evidence of a corner at the location described in the Patent.

I next run out the C.H. Palen Survey and found it as described and as indicated on the plat. At the Northwest corner of the Palen Survey I found the old St Md and one of the bearing trees a large Lo N21 1/2 W 27 Vrs and the stump of a Lo. N13 1/2 W 9 1/2 Vrs. Then at 20 Vrs S19E I found a St. Md. which I take for the original Northeast corner of the M.M. Grant Survey. This corner as well as the Northwest corner of the Palen Survey is located about 400 Vrs from the nearest rock and the St. Mds. are made of large rock, quarry type.

I then run S71W 476 Vrs and found another St. Md. on prairie and no other rock near this place like the rock in the old St. Md.

The land is in cultivation at the location of the Southwest and at the Southeast corners of the said Grant Survey. No corners found.

I hereby certify that the foregoing statement or report is true as I found it to be on the ground.

Dan W Taylor Jr
Dan W. Taylor, Jr.
Licensed State Land Surveyor.
