REFERRED TO MAP

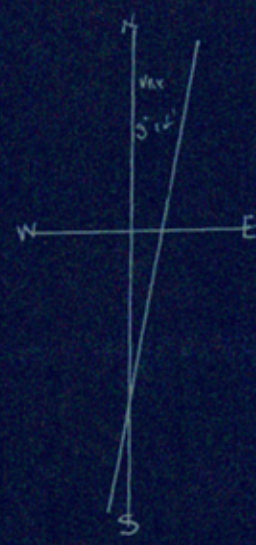

Dear Sir:
Enclosed find field notes of
a survey made for Mr J. A. Kinder of Brownsville
This covers the old channel at Boca Chico, which
was filled by concretion and not accretion.
Mr Kinder says I am supposed to fix
a price for this land - as it is a very
sandy soil and only has a front of 137.89² acres
would say about five fifty per acre or
the same as section # 2 sold to
Col J. A. Robertson.

Yours very truly

R. P. Jackson
County Surveyor
