Hon. J. T. Robison, Commissioner,  
Gen. Land Office.,  
Austin, Texas.

Dear Sir,-

I beg to submit a report of a survey made in accordance with the enclosed application, made by W. A. Tunstill, covering supposed vacancy between Block X. and Block Y. situated in the S.E. part of Crane County.

The Sketch I enclose is self explanatory, I find that these Blocks of land connect up on the ground, and no vacancy exists,

You will note that the distance from the last certain corner in Block Y. to the S.E. cor of 81 in Block X. is four miles and 112 vrs, it is certain that 89 G.C. & S.F. Blk. Y. carries about 28 vrs excess East and West, on the South, in fact it is a little more than that taking the large rock 300 vrs East. there is also good evidence at the S.W. cor of 87 and S.W. cor 90, to justify excess.

I, establish the S.W. cor of section 88 Blk. X. by intersecting the line brought from the East with a line over the old corners and markers on the East line of 18 and 81. which happened to strike at right angles, a good evidence of the correctness of my work.

In consideration of the above I do not think field notes could be filed in this case, covering vacancy as applied for.

Please acknowledge, as this work may be of some value in the future.

Very Truly Yours,

*Robt E. Estes.*

L. L. Surveyor, Midland Texas,
