

Dist. Surveyor. Office,  
Laredo. Texas.

Oct 12 1874

Am. S. Groves

Comms. G. L. O.

Sir.

Your Commemoration of 16 returns enclosing  
a Sketch of Surveys made by J. Kuchler in Donmit City  
is received - No surveys are on file in this office  
on the land so measured the only ones being the two on  
said Map measured for Dr Kearney -

There is no doubt that a great discrepancy  
exists in the Maps as to the longitude of the Pecos River  
which on the Maps of Encinal Laredo + Duval is too far  
to the East, about 20 miles apparently.

All these County boundaries are copied  
and in dispute

I am very respectfully  
Yours obt. Servant.

Gayetano de la Garza  
District Surveyor  
of Webb District.
