but both surveys were patented to him pats. 155 & 159 Vol. 7

There is a muddle in the scrip Nos. of Abs. 532, 533, 534, 535.

532 is recoded here as Scrip No. 21/268 in deed record, and you have

523 and 535 the same Nos.

Now I do say that all these memorandums are errors, some that I have marked not found may be upon my map.

Some years ago I went over the map with an idea of correcting the errors and making the map correct and I intended to look further for the surveys not found. Some of the errors I noted when I made the map and check up all the abstracts in the County when I had access to the County records of Duval but I can not now tell which are which

Some of the surveys that I noted no abstract Nos. may have been abstracted since. Some of the surveys I noted as abandoned may have been corrected in subsequent abstracts.

If the list is useless to you it will be an easy matter to destroy it.

In the matter of the muddle in the scrip Nos. referred to Abs. 532-5 the deed record here shows F.C. Gravis lands Abs. 532, Sur. 5 L.S. 21/268 533, L.S. No. 10/299, 534, L.S. No. 10/269, and Abs. 535 E.N. Gray also gives L.S. No. 10/299, The patent Nos. being as given in Abstract book I do not suppose there are two scrip to the same Co. of the same No.

On my map all the abstract Nos. that in 1890 were abstracted in another County, from Duval are in red ink. I know you have changed some of them since then but, think some of them that are far inside the County have been overlooked. Possibly the Santos Garcia abstracted in Starr 5 leagues South of the center of the County has never been changed.

On my way all the abstract Nos. that in 1890 were abstracted in another I do not suppose there are two scrip to the same Co. of the same No. Givee P.S. No. 10\239. The Dural Nos. being as given in Abstract book 933. P.S. No. 10\239. 934. P.S. No. 10\239, and Abs. 935 E.N. Gray also the deed record here shows E.C. Gravia lands Abs. 938, 939. P.S. 21\809

In the matter of the margin in the scrip Nos. referred to Abs. 938-9 11. The list is useless to you it will be an easy matter to identify the reced in subsequent abstracts.

Some of the surveys I noted as abandoned may have been corrected since. Some of the surveys I noted as abandoned may have been corrected since.
