Dear Sirs I was over in Eastern part of Co where pre-emptors have located on strip of land ~~where~~ lying between Dally English & League surveys I find that the West line of strip has been moved west about 50 or 60 rods west of J. P. Bagley's line and encroaching on Dally English survey I find the J. P. Bagley line clearly established and corner etc inside of pre-emptors fields although they claim out to the Brooklove line regardless of course and distance.

Respectfully Yours

Hugh Robinson

They claim they have their
Patents issued to the Brooklove line
