Dear Sir

I herewith inclose you corrections & re
surveys of four tracts

Two of which on State Free School land &
have been applied to by the owners or
applicants to court as they have been
badly in conflict

in doing so I have trespassed upon
no grounds except State lands

Although their shape has been changed a
little it has been done by mutual consent
and request and principally occupies the
same respective ground

I went a very little below or south of
original line of No 12, to get its quantity
but got it out of vacant land

No 4 is occupied by Joel M^e who has
partially paid its principle and interest
and wishes an early action on it as he wishes
to improve &c.

No 12, has been applied for by one Hunter
But he first wishes it corrected and when
you notify me of these notes being accepted
by you I will classify & appraise it, as
you gave it to me to correct, classify &
appraise &c. in Jan'y last along with others

The other two corrections are joining three
two School sections one Survey A & the other
No 1- I & G N R R Co Now owned by the
County 22951

N. Y. & T. Land Co - which were also badly
in conflict by the Survey using old call
of 1500. acres which is really 1734, from N-W.
cor of R Jones 1/2 Sec to N-E. cor of Knight-
& White

These Surveys I informed the President of
this conflict by sketch out also was
requested by him to correct them

So I have seen fit to make the entire
change & corrections also resurvey of all
four of these Surveys and let them pass your
examination as one block Assuring you
that I have full consent by request of the
several owners to so act

These four Surveys will also base their
corrections on the red lines of this sketch

I will to day notify the N. Y. & T. Land Co -
of my forwarding them papers to you

This sketch will also be the base of cor-
rection of G. I. & G. N. Surveys North E. of &
joining the Habermas Surveys which will be
soon sent to your office and at the time
called to this sketch to some making another
and when you pass on these please notify
me of your action & c.
