

The sketch which is forwarded was directed to me by B.W. Gray & it is made out by J. Middle  
 who has for some time been my deputy and who has had personal knowledge of the  
 survey, But there has been such changes in the survey in that county, that to lay down  
 a batch of the first survey would present more than half of those made upon  
 different names now appearing of more recent date, but as the last survey  
 may be considered the most correct, I have certified to be correct as far  
 able to do from the records of my office, and believe this sketch to be true

William D. Orr
