

Austin Texas

August 20th 1883

I J. H. Kemble do hereby certify that the accompanying sketch of the South West portion of Garza County was made by myself as Deputy Surveyor of Young Land District from actual survey on the ground ^{made by me} and that it is correct. That to locate section No 1 T1N N2 R4 in block 30 T7R I began at the S. W. corner of survey No 473 Blk 97 made for H & T C Ry Co, ^{Bridges Co} which I found on the ground from which I ran a line S 77° W 3159 rods to the N. W. corner of sur No 1 T5N on the N.B. line of the T & P Ry 80 mile reservation from which two points said sur No 1 T1N N2 R4 gets its connection from the last named corner I ran a line N 18°

W 16 miles for the N.E. or beginning corner of said T1N N2 R4 ^{sur No 1} that at eight miles I found the N.E. cor of survey No 1 made for B & B a stone mound on point of sharp hill but about 65 N 180 rods that the corner of said survey No 1 I did not find on the ground but as it calls for an earth mound & 4 pits and is near an old camping place or stock ranch the probability is that it has been destroyed, I then began at a stone and the N. W. corner of survey No

402 made for T & P R R Co Blk 8 - a noted corner - ran thence East five miles for N. W. corner of survey No 18 T1N R R Co Blk. which I found to be 1227 rods North of N.E. cor of said sur No 1 T1N N2 R4. ^{from which} I also ran a connection I locate Township 7 N Blk 30 ^{from the N.E. cor - 48} and the vacancy on the East & West of it as shown by the accompanying sketch.
