Spur Tex Feb 27-1935

Mr. A. L. Harris Lubbock Tex

Dear Sir:-

Mr. C. B. Jones who has charge of the lands,
owned by S. M. Swanson & Sons & others,
received a list of acreage in each section
thru which County line between Kent &
Garza - runs across the old Spur Ranch
territory. Mr. C. M. Voss sent Mr. Jones a
list. It seems the Land Office at Austin
changed the acreage in some sections
from your list. Your list is correct and
conforms to the resurvey made by me
in 1909 & 1910. The land office seems to
have taken the area of sections figured
from Geo. Spillers work of 1900. - Spillers
work was needle work - and there is local
attractions in that locality. Spillers chaining
was not good. I recognized all of Spillers
corners. The North line of Section 56
block 2 N & G. N. R. R. is short. Spiller
calls it - 2056 varas. - On the ground I
found it - 1958[±] varas - both corners were well
identified. This discrepancy - makes the area
of 56 - 57 & 72 shorter or less than the

2

Spiller map. would make it
Sec. 56 - was patented to A. J. Mc-Lain
making N & S. lines 2056 - area ~~447~~ 699⁶ as
The sec. is short on the ground.

I think the areas you made out should
be adhered to as they are correct

I wish you would write me about
this matter. I thought perhaps you
had had some correspondence with
Land on this. Glad you ran the
county lines - Dickens & Crosby - should
get you to run the line between them.

Yours Truly
Geo. M. Williams.
