

The Empresario Grants of land between the Muguera & Sarco Creeks, in their descriptions, give no courses of the lines - and no marked lines have been found on the land.

No descriptions of corners are given But I have found marked trees at the points marked A. B. C. D. E. which from their appearance and situation, I think indicate corners, viz;

- A Lower corner of Brech on Sarco.
- B. Upper corner of Josafatio on Sarco
- C. Upper corner of Vila on Sarco
- D Upper corner of Domingo Morris on Sarco
- E. Upper corner of Catharine Mugar on Muguera near mouth Goat Gulch
