

Compare new map which shows a discrepancy of 42903. Red figures show a discrepancy of 7303. Sketch & description is not

correct as to the such date's factory there will be still a conflict with Benjamin's survey.

The State of Texas,  
 County of Grayson & I M Newcom County  
 Surveyor for Grayson County, do hereby  
 certify that the above is a true sketch  
 of the S. J. Wood & surrounding surveys, the  
 error in the sketch, bearing date of  
 June 5<sup>th</sup> 1859, was found to be in S. J. Scott's  
 Western Survey 3. 3499. Corrected field  
 notes of which is here with returned,  
 I certify that I found the error by  
 chaining the line from S. M. Benjamin's  
 Original North West corner (which is  
 found on the ground, as described in  
 the Record), South to S. J. Woods South  
 East corner, thence West to Hatcher's  
 East line, finding Hatcher's S. E. corner  
 correct as described, I found in running  
 this line, that S. J. Woods South line was  
 550 vars. S. J. Scott, or C. Morgan, 1340 vars  
 O. Milburns 950 vars. & the distance from  
 counter 24490

O Milbourn South West corner to S  
Hatchers East Side is 820 bars finding  
that C. E. Findlemans Westely North Side  
was 158 bars longer than Hatchers South  
Side. I established Findlemans Westely  
North West corner accordingly leaving  
C. E. Findlemans & H Eaks North Side  
together 3502 bars long,

I certify under the Oath of my  
Office that I find S M Beijins Original  
North West corner, & Solomon Hatchers  
Original South East corner, as Described  
on Record in my Office, & as Represented  
in the above Sketch, that I run South  
on the O Beijins West Side to S. S  
Woods S E corner, thence West to  
S Hatchers East Side with careful &  
sworn chain carriers & find the  
Distances as above represented,

Given under my hand  
on the 11<sup>th</sup> day of July 1860
