Seguin Texas Sept 22nd 1873

Hon Jacob Kendall
Comm^{rs} Genl L. O

Austin

Dear Sir

The agent of the
Houston & Texas Central Railway Co, has informed me
that you have examined the field notes 42 set made
for that Company & find so many inaccuracies in
them that you cannot pass them, and he says that
you require a connected map of all the surveys
with the ^{length of the} lines marked on them.

This is rather a strange report & comes in an unofficial
way & of course I can pay no attention to it.

Please state your objections to the surveys,
point out the inaccuracies & discrepancies, that
they may be corrected or explained if they exist

Very respectfully

A. M. Evers
