

PLAINVIEW, TEXAS.

Sept. 12, 1903.

Hon. J. J. Terrell, Com. G. L. O.,  
Austin, Tex.

Dear Sir:— I wrote you some  
time ago, sending sketch and  
field-notes of a survey, made by me,  
connecting all the corners established on  
the ground, by Jno. Summerfield, the  
original locator, in Blocks S. 1. and  
J. 11. I asked for instructions  
about how to deal with the excess be-  
tween some and the deficiency between  
other of the original corners. I have  
received no reply.

I would be glad to have your  
reply if you can give me instructions  
on the points referred to. Also a sketch  
showing length that lines in that  
country should be made.

Yours truly  
W. Jeff Williams  
Co. Sur. Hale Co.,  
Tx.

Hale Co. 23,

Williams' letter asking  
for instructions as  
how to make certain  
Surveys,

Dated 9-12-03,
