 the S. E. Cor. Sur: No 136. 1840.  
 N. P. Cr. B. Crk. E. Crk. 244, in  
 Wexley Co.

Note. It is evident that Sur: No 1.  
 L. G. Coleman was intended to  
 go to the S. E. No 136. as above  
 but being held by identical corners on  
 the ground there is a vacancy between  
 the Coleman Surveys and the  
 N. P. Cr. Surveys on the  
 East of them. The mistake is of  
 course in the measurement, just where  
 is not now known, so the shortage  
 is shown on Nos: 136. where there  
 error was discovered.

Connection between the N. W. Cor:

Note.

As the S. E. Cor: Sur: No 1. Bk B.  
 is identified on the ground the  
 East line of Sur: No 2. some Bk B.  
 will hold to it: and as all the  
 corners on the S. line of Bk B. are  
 established, the same connection will  
 hold in respect to the Portant Bk B.  
 on their South.
