

Hamilton Texas

January 31st 1876.

Commissioner Genl

Land Office

Austin.

J. S. C. Forester do hereby certify that on accompanying sketches where the old Premption Survey - C. Manning and P. G. Morris have been heretofore attached to and called for the N. E. corner of the Wayne Barton - the call should have been for the S. E. corner of the Jacob Burleson or Wayne Bartons N. line, which is the actual position on the ground as the bearings all prove as found by making correction on the A. C. Cadwell

Given under my hand in Office in the Town of Hamilton on this 31st day of January 1876.

J. S. C. Forester
Surveyor G. C. T.
