

February 12, 1927.

Mr. Rupert C. Allen,  
Perryton, Texas.

Dear Sir:

I have your recent letter concerning the location of certain surveys in block 3, Public School land in Hansford County and note what you say, especially with reference to survey 2 of that block, and survey No. 304, block 2, G. H. & H. Ry. Co. located in accordance with the resurvey, in the western part of block 2 by Howard T. Trigg.

At the time block 3, Public School land was located, it does not appear that the excess developed by Trigg's resurvey in said block 2 was known or taken into consideration, hence surveys in block 3, Public School land should be located according to their own marks, if any can be found or to the lines and corners of surveys for which they call in block 45 on their east, which block had previously been resurveyed and corner marked by Joe L. Long, State Surveyor. If in locating surveys in block 3 in this way, there should be a conflict with surveys in block 2, G. H. & H. Ry. Co. on the west, such conflicting surveys in block 3 should be corrected so as to eliminate the conflict.

The Pre-emption survey of J. W. Jones referred to was first patented Jan. 25, 1895 on field notes calling to begin 274 varas south of the N. W. corner of survey 158, block 45. This patent was

Rupert C. Allen-----#2.

to be returned to  
Rupert C. Allen as per  
order of investigation  
made. Dated Feb 15, 1921*

canceled and survey repatented January 30, 1902 on corrected field notes calling to begin 123 varas south of the N. W. corner of said survey No. 158, which patent is still outstanding. Corrected field notes are on file in this office for survey 2, block 3 dated February 2, 1922 and for survey No. 5 dated December 10, 1917, both by R. T. Bucy. The first show to be of record in Book No. 2, page 2 and the latter in Book 1, page 177, Surveyor's records. No corrections for any other survey in this block.

I enclose herewith copy of field notes of two surveys lying west of the W. D. C. Hall survey as requested.

Very truly yours,

Commissioner.
