

State of Texas
County of Oklahoma

J. M. Mabry Surveyor
of Oklahoma County, Ok.

Whereby Certify, That I
began, at a mound + 4 pits, assumed to
be the North West Corner of Capitol
League No 185. That I then ran East
7437, thence North 10,000, thence
West 7500 to S.E. Corner of League
174 - Not finding the mound + 4 pits
called for I measured the dis-
tance south to the Moro + Pascoso
road - the distance agreed with
the distance called for in the
field notes of Capitol League 180.
In order to prove this still further
I measured North 5000 - & in
going North I crossed the ^{head of the} Creek
twice as shown on sketch & called
for in field notes of league 174 and
after crossing this head of the
Creek the 5000 gave out in
head of Creek - as called for in
field notes of league 174 - but not
being able to identify the mound
+ 4 pits in head of Creek - I went
to S.W. Corner of League 165
it being easily identified, being a
mound + 4 pits with a Cap rock - thence
I ran East crossing Moro + Pascoso
counties 26090

Filed June 17/83

J. M. Mabry

Harley Co. 56. File 5
road. 5000^r + intersected by line ran
North from N.W. cor league 175-
in bed of creek. Which satisfied
me that the mound + 4 pits assumed
to be the N.W. cor of league 185
was the N.W. cor of said league
185 as established by Capitol
league surveys - And also
that the mound + 4 pits being
put in loose sand in bed of
creek could not be preserved.
I also verified this by running
a fence line from the N.E.
corner of ~~Block~~ section 82 Block
L.E. West to the West boundary
line of Capitol league surveys
& when south of the S.E. cor
of league 150 + also of the S.E.
cor of league 161 verified
survey by closing on these two
corners as I have shown in
my sketch -

From the N.W. corner
of Capitol league No 185 I ran
East 10,000 varas to fix the N.E.
cor of Capitol league No 186 -
thence I ran East 3515 - thence
South 535^r to old rock cor

-mer identified by me as being
~~as being~~ the N.W. corner of survey
No 59 Blk L.C. - And that I have
given league 187 its position
from the N.E. corner of league
186 this being its beginning point.
I also certify that I have estab-
-lished the S.E. corner of Capitol
league 170 from the N.E. corner
of league 179, and that
since S.E. corner of Capitol
league 170 is 438^{ft} North
+ 670^{ft} West from the S.W.
corner of section 65 Block L.E.,
I further certify that I have
corrected certain surveys of
Blocks L.S. & L.E. to conform
with these measurements -

Witness my hand this
4th day June 1883

W. S. Mabry
