County of Haskell

I. W. R. Standifer County Surveyor
of Haskell do here by Certify that the above Sketch
Shows the true position of Survey as found
on the ground by actual Survey and find
that the Surveys put in by Daniel Montague
and William Hewitt in 1856 Conflict with
William Armstrong ~~in 1855~~ Surveys put in 1855
383 rods as shown in Sketch

I began work at the S. W. corner of Nathan R
Bridges Survey Both old bearings Still Standing
Thence E 3803 rods find pile of Gravel Stone
the S. W. corner of Geo W Brooks Survey
bearing trees gone Thence E at 3640 rods Paint
Creek at 5317 rods found the S. W. corner of
John Carmean and N. E. corner of Wm Harris

I then run West across Paint Creek 1900
rods and found a pile of snow ~~in~~
if Mosquit Brooks a few rods South of line
and found old bearing tree S. E. W 14 rods

The S. W. corner of John B Rogers No 149

Thence N finding several hacked trees on
line at 1900 rods the N. W. corner 149 old bearing
tree fallen down but plainly marked Thence N finding
old hacked line at 3890 rods find Rock mound the S. W.
cor of Sarah Smith. Old bearing tree gone but find
a part of large Elm stump corner and distance
for bearing tree Thence N at 530 rods Cross Running
Branch known as Red Creek at 540 rods pass
a large Elm marked 3 hacks 4 rods East of line
at 5700 rods the N. W. cor of Smith Survey no bearings
found Thence E 2191 rods to S. E. corner of Henry Craig
and S. W. corner

of No 10 B B D & R R Co Survey

Thence E at 640 saw a Branch
at 1609 saw a Stone for S.E. corner of 10 and S.W. 11
Thence East at 511 saw a Point - Thence North 173 saw
find a Stone Set in ground marked N.W. 11 put there
by L. H. Butler la. Son of Throckmorton la.

I then returned to the Corner I put in for S.E. 10
and run North 1200 saw a Branch with Mallows
trees on Branch, ^{at 1900 saw a Point.} but - found no bearing trees
as all the ~~the~~ timber had been cut down
this point should be the N.W. cor of No 11 B B D & R R
if Wm Armstrong put in his work as it is called
to begin at the N.W. corner of Wm Dennis Survey + 1160
and I also found the Distance from S.E. No 7
to S.W. No 7 to be 2009 saw less 109 saw
as shown on ground by actual Survey made by L. H.
Butler I also run a connecting line

Beginning at the S.W. corner of Wm Dennis old bearing
trees still standing Thence E at 202 saw passed
the N.E. corner of Robt. M. W. Williamson Survey old bearing trees
still standing at 3800 saw found pile of Stone
Thence E 1200 saw S.E. No 1 Thence N 5700
~~put in~~ for N.E. corner of H. Cunningham

Survey but found no bearing trees Thence W across
California Creek found old Stone mound
with an old Stake in center of mound I then
returned N.E. corner of Cunningham Survey

and run East-38° or more but found
no corners or marked trees Established corner
for in S.W. cor of D Brock Thence N 38° or more
to N.W. corner of Wm Huggins No 140 found
old Rock mound and found Gum elastic bearing tree
course & Distance as call for in field notes

I then returned to S.W. corner of Daniel
Brock Survey Thence South 1900 find Stone mound
in Prairie the N.W. corner of James Ryan Survey
Thence S 38° or more to N.W. corner of No 104
I.R.R.'s I then

S.E. corner
of Wm Dennis and run South of corner 4 rods
