

Mr Geo. W. Smyth, Sir I send you
 three dollars which you will please
 apply to the three sets of field notes
 and send patents to me at this
 office by mail.

August the 30th 1851.

J. H. Hollard

I hereby certify that the above sketch is the
 the correct position of Matthew Golliker's headright
 to copy of Field Notes sent from the General
 Land office and actual measurement in the field
 Witness my hand this 21st day of August
 A. D. 1851.

J. H. Hollard
 District Surveyor
 for Hamilton District

Mr Geo. W. Smyth Care of the G. L. O.

Sir the two surveys made for Jesse Duren
 640 Acres in the name of Martin Pruitt and
 327 Acres in the name of George Isaacs is all
 in surveyed in one body and Mr Duren
 did not want any corners taken between them
 one corner is in Bottom prairie, the other has
 no witness trees the above is the reason, though
 I had to make out two sets of Field Notes
 because there was two certificate, I hope
 it will not prevent patents from issuing.

August the 21st 1851.

Please enter Golliker claim on Map counter 26323
