J. De Cordova Esqr.

I send you a sketch of the surveys adjoining and adjacent to H. W. Young. On account of the manifest error in the connections of this work brought over from Rickland with regard to the Aquella work. I cannot certify that is correct but I believe it to be nearly correct from the best information I can get from the Depts.

The old map plotted from connections of Record shows H. W. Young to the right as represented above.

Yours Respectfully

C. Chambers
