

Scale 2000 is to 1 inch

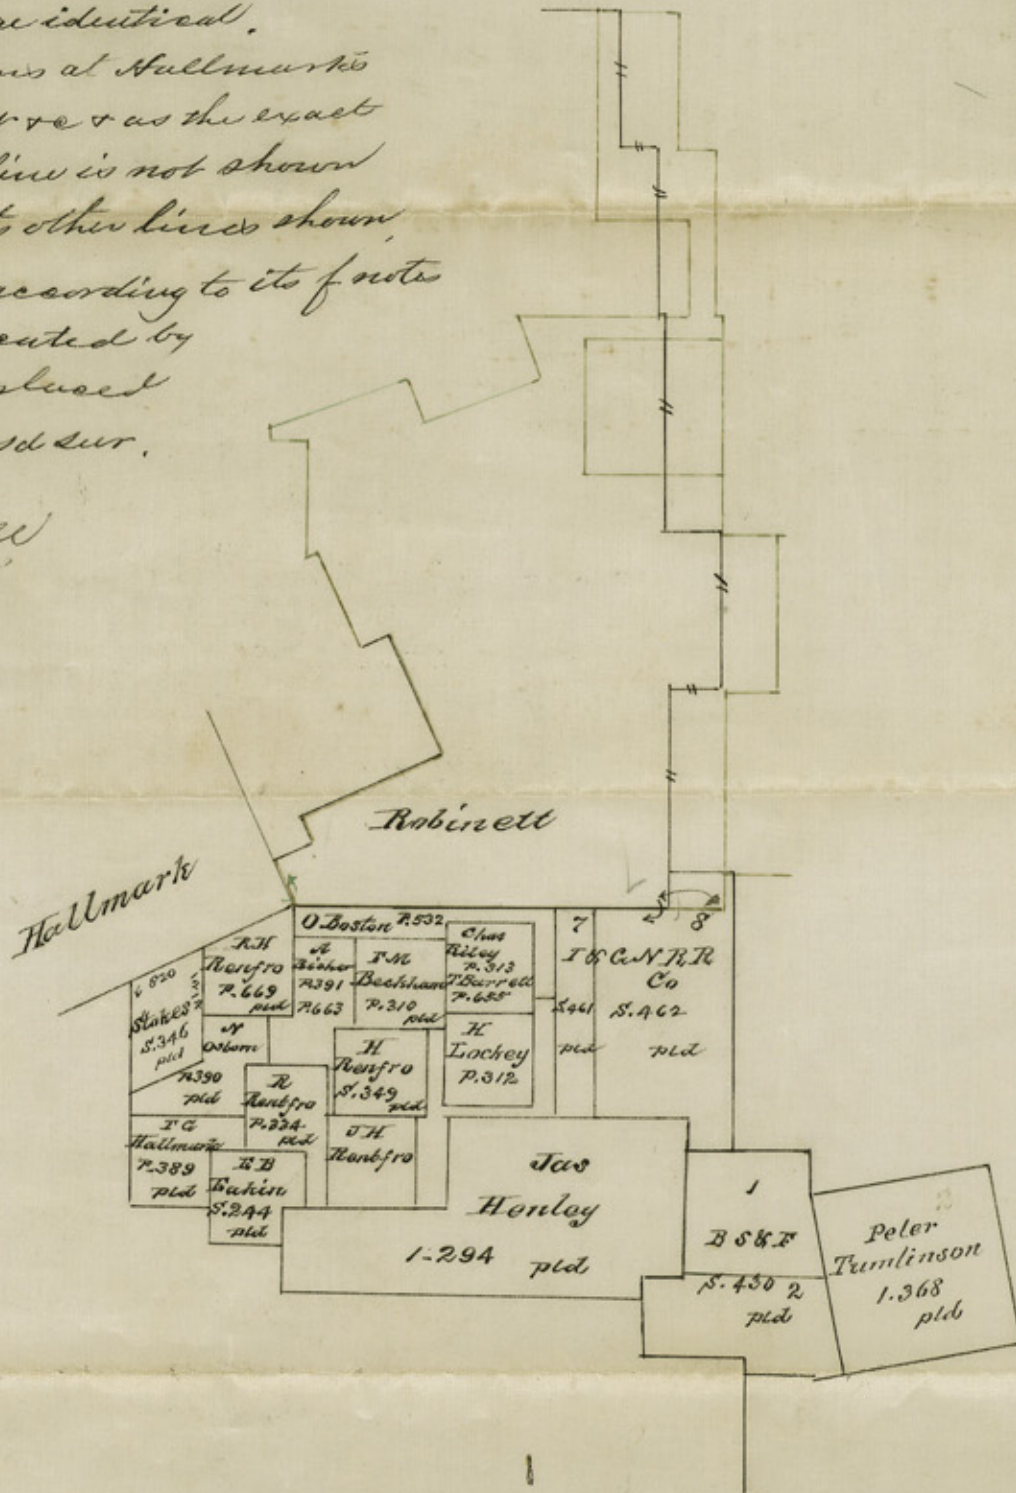

A Letter from Bt Duren of 4/26/88

states that there is a shortage
in Robinett's SB line & that Boston's
NE & NE 7's & NE cor are identical.

But Robinett begins at Hallmarks
SB cor & runs NE & E & as the exact
length of sd SB line is not shown
nor the errors in its other lines shown,
it is platted here according to its notes
& its position indicated by
green lines & NE 8 placed
in conflict with sd sur.
