EL PASO COUNTY COURT HOUSE.

A.H. PARKER,
COUNTY SURVEYOR.

El Paso, April, 1st, 1901

Hon. Chas. Rogan,
Land Commissioner,
Austin, Texas.

Dear Sir:--

I send you to-day by Wells, Fargo & Co. express, the Map of the Public School Lands, surveyed for the Public School Fund by me under contract made with yourself.

I will soon have all the field notes finished and will send them as soon as completed.

We did not have the field notes with us of the John Anderson survey, and after locating the same on the map from our notes I find it does not agree with the original notes of survey made by A. Q. Wingo, and I am now in doubt as to whether we found the right corners of said survey.

The first chance I have I will find the Wingo corner and make the proper connections.

Yours truly,

A. H. Parker,
Surveyor El Paso Co., Tex.

Mr. A. H. Parker
El. Pass, Texas
Dr. Sir

Written on suggestion of Commins survey

4/5

Your survey of the school land in El. Pass Co. under the Act of 1900 has been used. The same is well executed and will be of investible value in compilation of New Map of El. Pass Co.

Ans-4-6-1901 Peoples.

A.H. Parker 4-1-1901.

Of course we can not judge fully of your work until the field notes have been returned and checked and reported in this office, but from the map representation of Commins actually found on the ground and Commins made your work appears to be very creditable to you and will executed for the state - Let us have f. notes at your earliest convenience - Senator James says he thinks there will be no difficulty in getting extra pay for field notes
