Honorable Bascom Giles  
 Commissioner, General Land Office  
 Austin 14, Texas

SUBJECT  
 RESURVEY OF THE BOUNDARIES OF BLOCKS 9 AND 10 OF THE  
 PUBLIC SCHOOL LANDS IN HUDSPETH COUNTY, TEXAS.

Pursuant to your letter and instructions of June 5, 1952 relative to the correct location of sections in PSL Blk. 10, Hudspeth County, as surveyed by A.H. Parker in 1900.

I wish to report that during the month of December, 1943 I ran a survey line from the southwest corner of PSL Blk. 7, El Paso County to the northeast corner of PSL Blk. 9, Hudspeth County, both corners being in place and could be identified from the bearings given in the original field notes and from this survey I established a straight line prorating the length of sections between said block corners and established the southeast corner of Blk. 7., the southwest corner of Blk. 8 and the northwest corner of Blk. 9.

June 11, 1952 I surveyed a meander line from the north west corner of PSL Blk. <sup>10</sup> to the southeast corner of PSL Blk. <sup>9</sup>, both corners were in place and could be identified by the bearings give in the original field notes and established a true relation between these two corners.

From this information I constructed a map showing the true relation of all exterior boundaries of PSL Blks 9 and 10 and have developed the relation and location of all sections within the limits of said Blk. 10.

I have also established the the location of the B.H. Davis (Old Padre Mine) Survey showing its location in PSL Blk. 10.

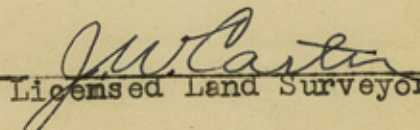

Jan. 18, 1943 I was taken to and shown the remains of the old Padre house by Wally Fields who had known of its location for many years. After finding the old house it was very easy to find the corners of this survey by following the field notes. Jan. 13, 1944 I made a report of my findings. This report is now on file in your office. This B.H. Davis Survey is definately in Hudspeth County and is correctly shown upon the map accompanying this report.

The tax records of El Paso County show that no taxes have been paid on this property since 1919.

I would like to know the procedure to follow in getting this property and taxes transfered to Hudspeth County

Respectfully Submitted

J.W.Carter

July 5, 1952

Honorable Bascom Giles,  
Commissioner General  
Land Office  
Austin 14, Texas

Dear Mr. Giles:

In reference to my letter of June 27th., 1952

I find an error in the 3rd paragraph of this letter

This paragraph reads "June 11, 1952 I surveyed a meander line from the northwest corner of PSL. Blk. 9 to the southeast corner of PSL. Blk. 9, both corners were in place and could be identified by the bearings given in the original field notes and established a true relation between these two corners"

both places where PSL. Blk. 9 is mentioned is in error they should read PSL Blk. 10. Will you please make this correction.

This paragraph should read

June 11, 1952 I surveyed a meander line from the northwest corner of PSL. Blk. 10 to the southeast corner of PSL. BLK. 10, both corners were in place and could be identified by the bearings given in the original field notes and established a true relation between these two corners.

Sincerely yours

J.W. Carter *J.W. Carter*
