Thence South 403 vrs.withthe East line of said Sec. No.38.

Z the deed does not state place of beginning.

Canada, Aug. 4th 1886.

J. H. Coelett Esqr.

Yours of the 29th July recd. & in answer you will find enclosed a sketch of the surveys made for Morris & Cummings in Jackson Co and surrounding surveys & of your locations &c. The lines and distances as given in black ink I have surveyed (the chainmen will swear I am satisfied that they are correct) The lines run from the Navidad to W. Coranahua on lines of Jesse & D. J. White leagues one run in measurement 260 pas. to agree with their call on W. Coranahua I gave the dist to said Jesse & D. J. White leag. N. of said Coranahua Cr. The Moore Sur. Beg. at the cor. of said granted to Lane & Hinkston I stated at the intersection of said lines & run as you will notice on sketch the S. E. boundary line of Moore runs through points of timber as called for by record & could not run any other way & hit calls. of nearly all the trouble (if not quite) about the calls of Morris & Cummings, ^{surveys} the deal is not by placing the Samuel Wiedly Sur. in its proper place on the map The D. & N. R.R. Co. puts the Wiedly Sur on the back or E. B. line of

1 the B. J. White league, which is incorrect
2 and not called for by said Widdy Sur.
3 By referring to the Field notes of said
4 tracts you will see the correctness
5 of the Statement. The dotted lines
6 in sketch in Murphy Sur. an E.
7 Carancahua is where the lines of
8 said Murphy were found by Fred
9 S. Robbins & myself in running the
10 Co. lines of Matagorda & Jackson
11 their corners were set by us to know
12 how much Jackson was entitled to for
13 Taxes &c. I send sketch by Brecken-
14 ridge in locating the G. R. Bellup
15 Sur. (same as David White) You will
16 notice that the "Elliott Island" course
17 + distance agrees with his from the
18 B. J. White S. E. cor. + the Dist to the
19 other one the same, also between the
20 S. A. + W. G. Sur. No 2.

21 You will notice that most all
22 the surveys on Carancahua over-
23 run. The dotted lines from the S. E.
24 cor. of Saml Widdy to S. E. corner of
25 Moore. I ran for Brauch it is the
26 division of land between him +
27 L. Ward in Moore Sur. The Murphy
28 surveys are "identified" by running
29 from the Beaumont Sur. + bringing
30 them to their call on the Carancahua.
31 The State Land Board have leased
32 land of the Morris + Cummings

surveys according to the sketch I made then & it was just like the one I send you only not so much of it. It seems to me if the Draftsman would consult the record of surveys in and around the M & C Sec's. he would soon be convinced that the sketch I send is correct.

Hoping the explanations I send you will be satisfactory, I remain
Your most Obedient & C
P. P. Putnam Co. Sur.
