

George W. Leonard 160 acres.

From his S.W. corner to the North corner of E Davis a Line of Connexion bears $S 68^{\circ} 30' W$. dist 1150 Varas. To the N corner of Elizabeth Davis's 1280 acre survey about 15 miles S.W. of Jackson Court House.

Connexion both made June 11th 1859.

Daniel Kelly's Connexion

From his North corner a Line of Connexion bears $N 33^{\circ} 30' W$. 1600 Varas dist to the South corner of E Davis's 1280 acre survey

William Shepherd 159 acres

The Connexion of the above Survey is by a line bearing from his N.W. corner $N 68^{\circ} 30' West$. 1950 Varas dist to the S.E. corner of Martha Cockett's 1280 survey about 38 miles South of Jas. Court House.

Connexion made July 11, 1859.

N.B. I have recently ascertained that this survey together with that of S.E. Shepherd, 158 acre portion (connected by line on the 3 day of Nov. 1858, to the S.E. corner of Martha Cockett by a line bearing $N 70^{\circ} W$. 402.2 Varas. dist to the S.E. corner of M. Cockett) are both incorrect having been surveyed in the name of William & S.E. Shepherd who are only assignees to the Original Grantors, the names of which I have not learned. Please let me know if the above survey needs correction by a resurvey or otherwise.

Quarterly returns.

Due for the Quarter ending
August 1st 1859.

Mr. Frances M White

Mr. Francis M. White

Dear Sir - Enclosed you herewith find all the work done within the preceding 3 months and due this the above date - set in regard to the survey of Benjamin Richards returned to your Office, of which a letter of date Feb. 21st 1859 acknowledges the receipt and also of conflicts between this and the J. Laird & E. Allen surveys. in reply I say that there is an error in the locality of the Laird & Allen survey. I have been on the ground examined their locality, the following sketch shows their true position. So there has been an error in my predecessors in placing these surveys in the map in the true position they should

N 22° 30' W. 425 Varas

be placed in the map in the true position they should

From the N.W. corner of B Richards a line bears N 22° 30' W. 425 Varas to the S.E. corner of J Laird's survey.

Connected July 11th 1859.

J. Geo. Smith Dist surveyor of Jasper and Dist do hereby certify that all

the enclosed connexions have been made at the day and date written and that they are correct.

Geo Smith

Dist. S. J. L. Dist

P.S. The surveys of J.W. Hart and William Ferguson, sent in your list for correction I have not yet been able to attend to but will be attended to soon

G. Smith
