Dear Sir

I to-day send to Mr. Bee & A. a sketch of a part of blocks
11-337-301-43448 survey No. 383.

This shows that Country part as I find it after
a very careful survey, The difference in my work
now and that sent is generally in corner by my
taking a corner at No. 112 which W. Johnson described
to me, and which he claimed to have established by
line from Blk # 9. I afterwards learned that what
he described to me was not his corner nor any very
near it; The corner at 205 I found when
I first came into this County, and have every
confidence ⁱⁿ it; The corner of No. 1 Blk 10, I could
not find and am certain it never was here.

I have run a very careful line from 205 to the
work on sketch, and can see it is correct.

Yours Truly

S. L. Thompson
