Mr. G. W. Moore 7/8/02
Guthrie, King Co. Pasca-

Dear Sir

Your favor of 17th ult. was duly recd.
I have examined the field note of
connecting line and sketch by you
(as well as Mr. J. J. Goodfellow's report
and sketch) as to a supposed excess or
vacancy East of John P. Heath's survey.

After investigating the field note of the
surrounding patented surveys, the vacancy
or excess would be on the North of the
three D & W. N. R. R. Co. surveys and
South of Tyler Tap. R. R. Co. survey no 7,
cert. no. 117.

The corrected field notes of D & W. N. R.
R. Co. survey cert. no. 128 as patented, calls to
begin "at a stake at the N. W. corner of D & W.
R. R. Co. scrip no. 31/9, survey no. 3, thence West
126 vars to a stake on East line of John P.
Heath's survey, thence North at 1242 vars to the
N. E. corner of John P. Heath's survey, & continuing
North at 900 vars. a stake." I consider
the call for Heath's N. E. corner, only as a
secondary call, hence the three D & W.
N. R. R. surveys will & must hold to the
North lines of surveys 3-4 & 5 D & W.
R. R. Co.

Mr. G. W. Moore,
Guthrie, King Co., Texas.

Dear Sir:

Your favor of the 17th ult. was duly received. I have examined the field notes of connecting line and sketch by you (as well as Mr. J.J. Goodfellow's report and sketch) as to a supposed excess or vacancy East of John F. Heath survey. After investigating the field notes of the surrounding patented surveys, the vacancy or excess would be on the North of the three I. & G.N.R.R. surveys and South of Tyler Tap R.R.Co. surveys No. 7, Certificate No. 117. The corrected field notes of I. & G.N.R.R. Co. survey, cert. No. 128 as patented, calls to begin "at a stake at the N.W. corner of D. & W. R.R.Co. Scrip No. 31/G, survey No. 3, thence West 126 varas to a stake on East line of John F. Heath survey, thence North at 1242 vrs. the N. E. corner of John F. Heath survey and continuing North at 1900 vrs. a stake." I consider the call for Heath's N.E. corner only as a secondary call, hence the three I & G.N.R.R. surveys will and must hold to the North lines of surveys 3, 4, and 5, D. & W.R.R. Co. If the owner desires to send in corrected field notes for said I. & G.N.R.R.Co. survey by scrip No. 128, abandoning the call for the N.E corner of the Heath survey and simply go North 1900 varas, he can do so, and file on the excess between the South line of survey No. 7 and the North line of the three I. & G.N.R.R.Co. surveys.

Very respectfully,

Note—All payments for School and Asylum Lands must be made to the State Treasurer, and not be sent to this office.
