Office of Dist. Surveyor
 Jacksonboro Jackson County

August 20th 1872

I hereby Certify that the above Plat is a true and correct representation of the Survey made by W. L. Hill Deputy Surveyor of Jackson Land Dist. on Aug. 12th 1872 in Blocks A, B, C, in Knowlton & Henderson Counties on the Salt Fork Brazos & Big Wichita Rivers, as evidenced by the Field Notes numbered from 1 to 220 in Block A made for B. B. B. & C. R. R. Co., Field Notes numbered 1 to 72 in Block B made for S. H. & H. R. R. Co. and Field Notes numbered from 1 to 22 in Block C made for Columbus Tap R. R. Co. all duly recorded in my Office 20th

August 20th A.D. 1872

E. Boon

District Surveyor Jackson Land Dist.

CONGRESS

To the Commissioners of the General Land
Office

This is to Certify that recent sur-
veys made with my assistance by J. H.
Dickins have demonstrated that the
Stream mentioned in the field notes of
of the Block of work made by me in Knox
County under the name of "Camarache
Creek" is really the main fork of the Big
Wichita and that the branch represented
as the "Big Wichita", is the South Fork of
said Stream and the smaller of the two

You will therefore please change the
map of said Block of work accordingly
and in patenting said surveys call for
the streams according to the explanation

For confirmation of the facts herein
stated I respectfully refer you to the map
and field notes of Blocks A. B. C. of surveys
made for the Houston & Texas Central Rail-
way Company by J. H. Dickins Dept. Sur-
vey District

W. L. Hill
Deputy Sur. Jack Dick

Austin Nov 23. 1872
