The "W. B. line of the L. W. Sinner Survey is 3623-4. varas, instead of 4074. varas as given in the Original Field notes (short 451-24 var),

Thus making the S. E. Corner of the S. G. Wright Survey, & the 'el' corner of the Sinner survey the same (identical),

I hereby Certify that the above statement is correct,
