Hon J. J. Terrell, Com. G.S.O.

Austin - Tex

Dear Sir - According to instructions in your letter of March 5/04 - I herewith enclose sketch and corrected field notes of surveys 1-2-3-4 & 5, BLK B. H. S. & W. T Ry Co and B. S. & F. Lamb. County - Also large sketch of lines run and corners found by me in Jan & Feb 1886, from S.W. cor. sur. 1 BLK A. in Lubbock County, west to Capitol League, and north 34 miles to the N.E. cor. of Capitol League 637 - thence East 8 miles and South 34 miles, &c. All the corners marked on said sketch as identified were comparatively new and very plain at that time, but since then nearly all of them have been obliterated. The N.W. cor. of survey 1, BLK B. can not be placed at any point near the locality called for in its field notes where it will be 424^m N. of creek and the S.E. cor. of the survey 432^m E. of creek - hence I have located the BLK by the section given in the f.n. of survey 30, BLK T, and the corners found by me in 1886.

Yours truly
A. C. Overman
