

This above is a correct sketch showing the relative situation of certain surveys on Falls Creek to the neighboring surveys on Compadre River as ascertained by work on the ground.

Sketch No. 2

Compadre Apt 24th 1873

Hon Jacob Kuebler Com. G. C. O.
Austin
Tex

With a view to further correction of the map I send you the above sketch No. 2, which truly represents the relative position of the surveys indicated. Proof. 1st I went to D. J. Brown's N.W. corner a large rock mound, and run thence S 19° 29' 50" E. his S.W. corner from which a Mesquit bears N 14° 50' W. a Spanish oak stump bears S 4° W. Thence S 71° W 155-68' struck Good's East line thence S 19° 29' 50" E. to 330' Good's S.W. corner. Thence S 71° W. to the old line to his S.W. corner from which a large Mesquit-Marked S bears N 66 1/2° W 31' & a rock mound the corner of Greenly's Fish S 71° W 77 1/2'.

The above facts are so plain as to admit of no question on the ground and make a change in the map imperative.

Respectfully

Your Obedt Servt

John Quillin

Compadre G. C.

I certify the sketch and remarks on the reverse hereof is
recorded in Book A of my office Page 222

Filed Apr. 30/73.

E. Schuchter.

This above is a correct sketch showing the relative situation of certain surveys on Falls Creek to the neighboring surveys on Lamparas River as ascertained by work on the ground carefully performed.

1st Begins at the S. E. Corner of J. D. Givins tract and runs N 71 E 1556 ft. Thence N 19 W 330 ft. strikes D. S. Givins S. W. Corner.

2nd J. W. Givins N. W. Corner is 280 ft N 19 W from S. E. Givins S. E. Corner

3rd From a point 260 ft N 71 E from J. W. Givins N. W. Corner runs N 19 W 300 ft. strikes the S. W. Corner of H. R. Bessing's Preemption

I certify the above is correct in every particular
